COURSE INQUIRY BOOKLIST REPORT

Under each class is listed the ISBN (**International Standard Book Number** and is a 13-digit number that identifies published books, workbooks, eBooks, or Access Codes), Author, Textbook Title, edition, Copyright Year (CY), Publisher, New Price and Used Price in the College Bookstore. The last column list whether the course materials are Required (R), Student Choice (C), or Optional (O).

(R) Required Designation means the instructors is requiring this item for their class

(C) Choice Designation means the student will choose 1 from the list of items

(O) Optional Designation is used by an instructor as a recommended resource that may be helpful but is not required for the course

***NO TEXT *** will be used when the instructor is using a free resource that students are not required to buy. This is commonly referred to as an OER (Open Education Resource). As Defined by UNESCO (United Nations Educational, Scientific and Cultural Organization) an Open Educational Resources (OER) are learning, teaching and research materials in any format and medium that reside in the public domain or are under copyright that have been released under an open license, that permit no-cost access, re-use, re-purpose, adaptation, and redistribution by others.
