COURSE LEARNING OUTCOMES:

At the completion of this course the students should be able to:

1. Perform basic arithmetic operations on real numbers using the properties of real numbers and the order of operations.
2. Evaluate and simplify algebraic expressions, including using laws of exponents.
3. Solve linear equations and inequalities, as well as application problems.
4. Perform basic operations with polynomials including factoring.
5. Graph linear equations and inequalities and solve problems using the basic properties of lines, such as slope and intercepts.

The center has tutorial software in a variety of courses along with instructors and peer tutors to assist students. Use of this resource has been extremely helpful to students taking MAT 070 in the past.

LEARNING/TEACHING METHODS:

Lecture, student discussion, guided and independent practice, cooperative learning,, computer tutorials and outside reading assignments.

ASSESSMENTS/METHODS OF EVALUATION:

To demonstrate attainment in program and course learning outcomes for MAT 070, one must achieve an overall average of 77% or better. To achieve these outcomes, you must successfully complete the following:

1. Major Tests	Average will count 50%
2. Quizzes, Class Activities and Outside Assignment	Average will count 15%
3. Graded Homework	Average will count 15%
4. Final Exam	Exam will count 20%

GRADING POLICY:

Grades will be assigned on the following scale:

93 – 100%	A
85 – 92%	B
77 – 84%	C
Below 77%	F
Administrative Withdrawal	WF*

*Administrative withdrawal is used when students do not meet the attendance requirement.

STUDENT ATTENDANCE POLICY:

- The current MCC Attendance Policy applies. Attendance at every class is necessary for maximum benefits from this course. Students are required to attend the face to face class meetings a minimum of 85% of the time in order to receive credit for the course. Attendance for the hybrid portion of the course will be accounted for in given assignments. Three tardies and/or early departures equal one hour's absence. Missing more than 10 minutes at the beginning or end of class will constitute an absence not a tardy.
- Absence from class may be excused in the following circumstances:
 - Verifiable death of an immediate family member
 - Verifiable hospitalization of self or immediate family member
 - Documented emergency
(Definition of "immediate family member," mother, father, sibling, spouse, child, grandparent)
- Students will be counted absent from the date of registration.

- Students must be present in at least one class during the first ten percent of a course in order to be considered enrolled in the class. If a student has not attended at least one class by the ten percent census date, the instructor will administratively withdraw the student.
- Students who miss more than six contiguous contact hours may be administratively withdrawn from the class by the instructor and given a grade of “WF.” The “WF” will be equivalent to an “F” when calculated into the student’s GPA.
- Students may remove a “WF” by submitting appropriate paperwork for an official withdrawal by the last day to officially withdraw without receiving an “F.” The last day to officially withdraw without receiving an “F” is published in the academic calendar for each academic year.
- **In compliance with G.S. 115D-5, MCC policy permits a student to be excused, with the opportunity to make-up any test or other missed work, a minimum of two excused absences per academic year for religious observances required by the student’s faith. The policy limits the excused absences to a maximum of two days per academic year. Students who wish to be excused for a Religious Observance required by their faith must complete and submit a request form to the instructor(s) prior to the census date of each class. The *Request for Excused Absences for Religious Observances* form can be picked up from Student Services. This does not supersede the college-wide attendance policy as outlined in the college catalog or syllabus, with the exception of a reasonable accommodation for the make-up of missed course work.**

COURSE POLICIES:

Assignment Due Dates:

All assignments are due at the beginning of a class period. If a student is absent when an assignment is due it is their responsibility to see that the instructor receives that assignment the next time the student is in class. If this happens frequently a student’s grade for that work may be lowered 10 points each day that it is late.

Make-up Policy:

If a student is absent when graded work is done in class, he/she will receive a grade of “0” for that work. In computing the quiz average the lowest grade for each student will be dropped before averaging. Test can be made up only in cases of legitimate verifiable absences and must be made up within three days.

Cellular Phones and Pagers

Cell phones and pagers should be set to silent mode before entering class.

Academic Integrity Statement

The President or any other authorized college official may dismiss, suspend, or expel any student who disrupts the legal mission, educational processes or function of the college, (see Student Governance and Conduct Code). Deliberately cheating or knowingly and intentionally engaging in acts of plagiarism is a violation of the Student Governance and Conduct Code (see Student governance and Conduct page 47). Cheating will result in a failing grade for the course and possible expulsion.
